

Testboy® TV 220

digital clamp meter

The digital clamp current meter Testboy TV 220 is for measuring AC and DC voltages, resistance, continuity, diode and frequency with a built-in clamp for AC current to 1000 A.

The large LC display with bargraph enables versatile, reliable testing. The carrying case makes transport and storage of the device and all accessories easy.

The robust and tough ABS plastic housing guarantee long life testing. Three years international warranty.

The included high quality test leads extend the application spectrum of the Testboy TV 220. Whether you need to measure voltage or resistance, you don't have to switch testers. The last test result can be saved for later evaluation with the data-hold function. The backlit LC display makes the test result easy to read even in poor conditions.

display	3 ^{1/2} digit with 33 segment bargraph
voltage DC	3, 30, 300V ±0,8%, 1000V ±1,0%
voltage AC	3, 30, 300V ±1,0%, 750V ±1,2% 40...200Hz
lowest resolution	1mV
current AC	300A ±2,5%, 2000A ±2,0%
lowest resolution	100mA
conductor	max 55mm
resistor	300, 3k, 30k, 300k, 3MOhm ±1,5% 30MOhm ±2,0%
continuity	<20Ohm, acoustical
diode test	drop-out voltage
overload category	CAT II 1000V
protection	IP 44
power supply	1x 9V 6LR61
operating temperature	0° to 40°C
dimensions	282 x 104 x 47mm
weight	500g
supply	2 pcs. test leads instruction manual 9V battery plastic case
